

Rose Marie Bagley

The remains of Rose Marie Bagley were found by fisherman on July 4, 2006, near a rural Oklahoma farm pond. Ms. Bagley had been missing since May 23, of 2006.

White Female

46 years old,

5'9" tall

Weight 160-170 lbs.

Blue Eyes

Brown Hair

Resident of Lindsay, Oklahoma

She constantly licked her lips due to excessive drug use when she was younger. Due to a car accident, her right leg is shorter than the left, so she walked with a noticeable limp. She has often been mistaken for being intoxicated because of her staggering gait.

She also goes by the names "Rose Bratcher" or "Rose Long"

Rose left her home in Lindsay, Oklahoma around 10:00 or 10:30 a.m. with a young man. He has said that they then drove to Marlow, Oklahoma, where he took Rose to a local drug store to pick up her monthly prescription.

If you know anything about the death of Rose Marie Bagley, or believe you have sighted her on the date of her disappearance, please contact authorities.
